2010 SEASON

1 all time Boone & Crockett Bear
2 yearly Boone & Crockett Bears

9 HUNTERS, 6 BEARS

OUR GOALS:

We are very proud to send you our 2010 hunting newsletter.

We have always felt a strong commitment to work hard to get outstanding trophies for our hunters. Most clients become life-long friends.

INTEGRITY OF YOUR GUIDE: Constant change is a especially large part of trophy hunting. Winter weather, law changes, and many other factors come into play. We never conduct a trip unless we feel the outcome will be successful.

Our success can be attributed to hardworking, enthusiastic hunters, experienced guides, our conservative harvest program, and providing the proper equipment for the hunts, which includes tents, boats, motors, and of course some luck.

Now is the best time ever to hunt
GIANT KODIAK BROWN BEAR.
Give us a call today!

ED AREMIA, HOLLAND
Ed saw approximately 150 bears including 12 we estimated at 9' to 10' bears.

He held off while attempting to bag a near world record bear.

DR. JOCHEN HUCKMANN, FRANKFURT, GERMANY AND THE PAW OF HIS 9" 10' - 27 1/8" SKULL BEAR APRIL 2010

**2010 KODIAK BEAR HUNTING
NEWS & 2011 FORECAST**

The highlight of the 2010 Kodiak Hunting season was the massive bear that John Ganton took. It measured large enough to make an all time listing in the Boone & Crockett book.

Dr. Jochen Huckmann and Cristian Wagner also took bears that were large enough to make a listing in the yearly Boone and Crockett book.

The bear population, especially the big bear population, is at all time highs. We guided one hunter who saw an estimated 150 bears including about 12 that were in the 9 to 10 foot size, but he held off while attempting to bag a near new world record Kodiak bear. Even though our bear kill numbers were down for 2010, we are confident that 2011 could be a record year.

Kodiak bear hunts are one of the greatest adventures in the world, and I only conduct bear hunts if I am confident that the hunter has a very good chance of taking a giant bear.

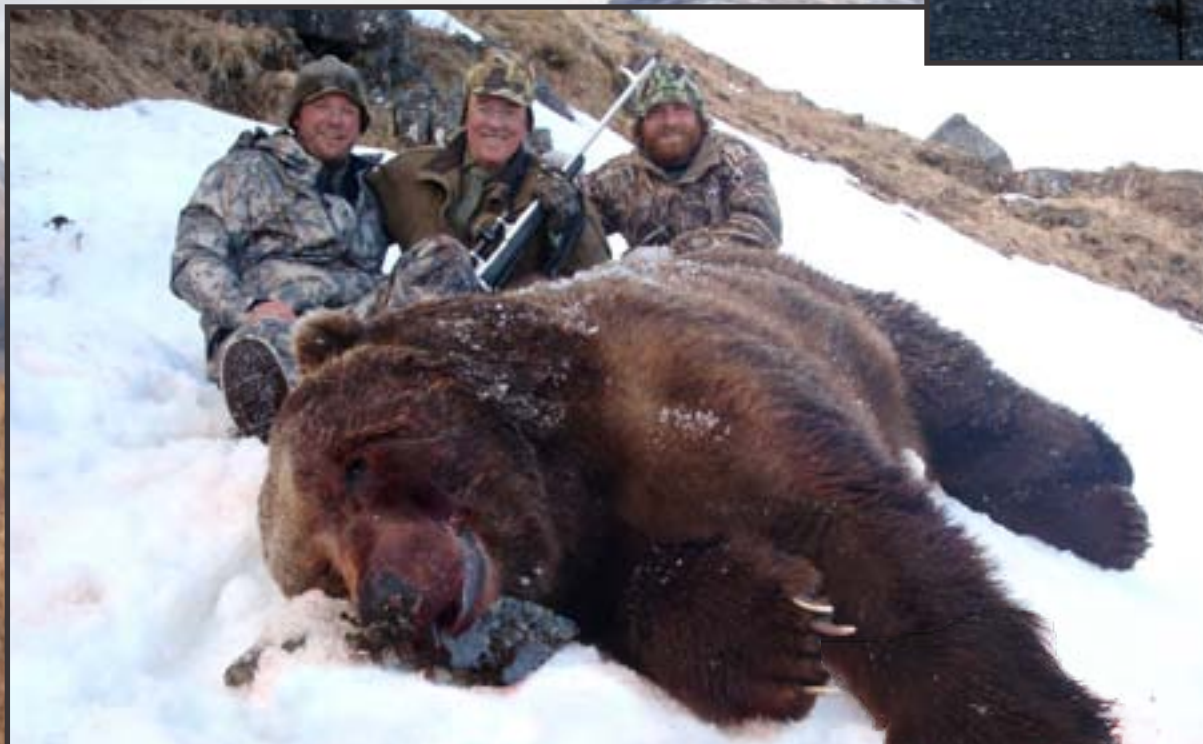

Please call or email for specifics.
